

Meet with Anyone, Anywhere, on Any Device

Cisco WebEx® Meeting Center allows you to:

- Collaborate more effectively with customers, partners, and employees
- Share information and ideas with teams anywhere, globally; all you need is Internet access
- Save time and take full advantage of resources by bringing people together without the need for travel
- Stay connected anywhere with a rich meeting experience available on any device
- Make meetings truly engaging and productive with integrated high-definition video, audio, and content sharing
- Make every meeting a videoconference, with your own personal Cisco® Collaboration Meeting Room, where anyone can join from any video device

Be more productive, collaborative, and get more done faster using Cisco WebEx Meeting Center, the proven, industry leader in web and video conferencing. Hold regular meetings with anyone – regardless of location. Manage projects, host sales meetings, and make faster, more informed decisions by keeping everyone on the same page with meetings that allow everyone to see, hear, and view the same information at the same time. And host engaging and creative sessions with customers, colleagues, or internal teams.

Meet Online Just as If You Were Face to Face

Use high-definition video to improve communications, relationships, and productivity by enabling people to meet face-to-face to share documents, presentations, and applications. Anyone can join the meeting by phone or integrated audio on their computer, regardless of the location.

Launch or join a meeting using a web browser, mobile phone, or tablet device. For video optimized meetings available from any device, use Collaboration Meeting Rooms Cloud as your personal, always on meeting place.

Count on Cisco for Highly Secure, Scalable, and Reliable Service

Cisco WebEx web and video conferencing solutions help reduce costs and allow IT to focus on core priorities. WebEx Meeting Center is delivered as software as a service (SaaS) through the Cisco WebEx Cloud, and is easy to roll out and scale as the organization grows.

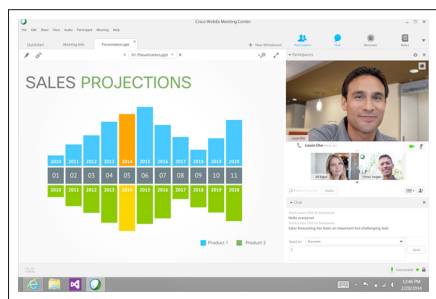

The Cisco WebEx Cloud is a global, enterprise-scale network designed specifically for highly secure delivery of on-demand applications. It offers a scalable architecture, consistent availability, and multilayer tenant security validated by rigorous independent audits, including SSAE-16 and ISO 27001.

Make Online Meetings Easy and Productive with These Powerful Features

Document, Application, and Screen Share

Share content or your entire screen with remote attendees in real time. Pass control to attendees so they can share content, or annotate yours. Figure 1 provides an example of content being shared with the active speaker and other meeting attendees.

Figure 1. Content Sharing During a Meeting

Interactive Multimedia Experience

Engage your audience by incorporating multimedia into your presentations, including PowerPoint, Flash animations, audio, and video files.

Integrated Video

View videos from up to seven attendees. Or select full-screen mode to view the active speaker in the main video panel, with other participants' video displayed as thumbnails. And for the most detailed video view, select the expanded full-screen option to view the active speaker in true high-definition, 720p display resolution. Figure 2 demonstrates full-screen mode. The video in the main panel automatically switches to display the person who is speaking, creating an intuitive meeting experience.

Personal Rooms

Meet even faster in your own permanent, personalized video conferencing space. Schedule ahead or leave your door open and let people drop in.

WebEx Meeting Center is updated regularly to meet the latest system compatibility needs. Please visit www.webex.com to see system requirements.

Languages supported include English, Brazilian Portuguese, Chinese (simplified and traditional), Dutch, European Spanish, French, German, Italian, Japanese, Korean, Russian, Spanish, and Swedish.

Collaboration Meeting Rooms Cloud

Make it even easier for others to join you in your Personal Room through the WebEx Video Bridge. People can join your video conference through any standards based video system.

Figure 2. View of Full-Screen Mode

Integrated Audio

Offer an interactive meeting experience with Cisco WebEx integrated audio or a third-party audio options. Choose toll or toll-free, or call-in or call-back. Or give attendees the option to connect using voice over IP (VoIP), or your computer's built-in audio. Wideband audio support using VoIP provides outstanding audio quality – even over low bandwidth networks.

Call-Me

Have your meeting call you. Simply enter your phone number when the meeting begins and the meeting calls you – no dialing, no passcodes.

Active Speaker

Focus on who's talking with active speaker technology, which automatically displays the current speaker's video in the active speaker window.

Meeting Recording, Editing, and Playback

Record meetings for future reference, training, or demonstrations.

Desktop Integration Suite

Initiate meetings from Microsoft Office or Outlook, Lotus Notes, and a variety of instant messaging solutions.

One-Click Meeting Access

Start a meeting and invite attendees instantly from your desktop, taskbar, or favorite applications.

Easy Meeting Invites

Send invitations and reminders using an automated phone call, text message, email from your local client, or instant messaging.

Enterprise Integration

Use single sign-on to access WebEx Meeting Center. Take advantage of integration and interoperability with Cisco collaboration products such as Cisco Jabber® and Cisco TelePresence®.

Cross-Platform Support

Meet with anyone on all common operating system platforms. These can include Windows, Mac, and Linux.

Mobile Support

Enjoy a rich meeting experience with audio, video, and content sharing across Android, iPhone and iPad, BlackBerry 10, and Windows Phone 8 devices.
